Fax Number: 402-894-3824  
Street Address: 14507 Frontier Rd  
City: Omaha  
State: NE  
Zip: 68138  
Country: US  
How would you like us to contact you? email

### Publication Information

Clearly identify the report, data set, or other document that contains the information you want the Department to correct.

DOT Agency: FMCSA

Publication/Report Title: State Reported Crashes

Publication/Report Title: 7/09/2002

How did you receive the information? If found on a website, please indicate the URL

<http://ai.volpe.dot.gov/SafeStat/CrashDetailReport>

Describe how the information in question affects you (i.e., how an alleged error harms you, and/or how the correction will benefit you).

State Reported Crash Report #OH0028202836 reported from the Smithville, OH Police Department does not meet the definition of an accident under 390.5 of the Federal Motor Carrier Safety Administration. The recording of this accident in the SafeStat System may result in an erroneous Accident SEA Value for Werner Enterprises, Inc.

Clearly identify the specific information that you believe needs correction. The report should be deleted from SafeStat as a recordable accident charged against Werner Enterprises, Inc.

Specify, in detail, why you believe the information fails to meet standards of integrity, utility, and objectivity.

The occurrence involved a Commercial Motor Vehicle owned by Werner Enterprises, Inc. that became stuck and pulled down a low hanging wire. The vehicle did have to be towed out from its stuck position, however was then able to proceed under its own power. No other vehicle/s were involved and there was no personal injury or death as the result of this occurrence.

Specify your recommendations for what corrections DOT should make to the information in question and reasons for believing that these recommended corrections would make the information consistent with both the DOT's and OMB's information quality guidelines.

The accident report should be immediately deleted from Safe Stat and appropriate adjustment made to Werner Accident SEA Value for the current reporting period

In a case where the Department has not designated a report, data set, or document as being subject to these information quality guidelines, and you believe it should be, you should specify why the information should be subject

to the guidelines; and include any documentary evidence you believe is relevant to your request (e.g., comparable data or research results on the same topic).
